## Inductive sensor

IG-3008-BPKG/6M

| Product characteristics                         |           |   |
|---|-----------|---|
| Electrical design                               |           | PNP   |
| Output function                                 |           | normally open   |
| Sensing range                                   | [mm]      | 8   |
| Housing   |           | threaded type   |
| Dimensions                                      | [mm]      | M18 x 1 / L = 80  |
| Electrical data                                 |           |   |
| Operating voltage                               | [V]       | 10...36 DC  |
| Current consumption                             | [mA]      | 15; (24 V)  |
| Protection class                                |           | II  |
| Reverse polarity protection                     |           | yes   |
| Outputs   |           |   |
| Electrical design                               |           | PNP   |
| Output function                                 |           | normally open   |
| Max. voltage drop switching output DC           | [V]       | 2.5   |
| Permanent current rating of switching output DC | [mA]      | 250   |
| Switching frequency DC                          | [Hz]      | 300   |
| Short-circuit protection                        |           | yes   |
| Type of short-circuit protection                |           | pulsed  |
| Overload protection                             |           | yes   |
| Detection zone                                  |           |   |
| Sensing range                                   | [mm]      | 8   |
| Real sensing range Sr                           | [mm]      | 8 ± 10 %  |
| Operating distance                              | [mm]      | 0...6.5   |
| Accuracy / deviations                           |           |   |
| Correction factor                               |           | steel: 1 / stainless steel: 0.7 / brass: 0.4 / aluminium: 0.3 / copper: 0.2 |
| Hysteresis                                      | [% of Sr] | 1...15  |
| Switch point drift                              | [% of Sr] | -10...10  |
